

8 is Enough

Does anyone remember Dick van Patten? He was a star of the TV show by the same name! However, we are talking about a bridge game, which will be held every 3rd **Sunday, 5:00 p.m.** at

15825 Manchester Rd, Ste.
221 Ellisville, MO 63011

What is 8 is enough?

In this Swiss team event was created so that more experienced players can mentor up-and-coming players. The composition of the team is limited by the number assigned value bases of master points of each of its members.

Master points for player classification:

- A** player, 2500 or more, equals **3** points
- B** player, 750 to 2499, equals **2** points
- C** player, less than 750, equals **1** point

Teams can be composed of any number or makeup of A, B, or C players as long as the total of the team does not exceed **8 points**. Some examples of the teams: A/A/C/C, B/B/B/B or any combination that does not exceed 8 points.

If there are least 3 teams in a flight, there can(Will?) be a winner in each flight along with the event's overall award.
